## Visual ERP Credit Card Acceptance with Solupay.

Qualify transactions at Level III interchange levels and save significantly on costs of acceptance. The Visual ERP user base will immediately experience superior technical and relationship management support with Solupay. Solupay's integration is unique in that it sends Level III data with all your Business, Corporate and Purchasing Card transactions - significantly reducing payment processing expenses.

Merchants are making the switch... and Solupay is making it easy:

- Includes the process of identifying Level III eligible transactions and sending required data without user intervention
- Aggressive pricing structure
- Automated PCI program
- Dedicated relationship manager
