

SYNERGY VISUAL WORKSHOP

RECEIVING INSPECTION

[CLICK HERE TO REGISTER](#)

WORKSHOP TOPIC:

Receive purchase order into an inspection location to quarantine incoming parts for inspection.

WHY USE:

Receiving Inspection will identify purchased parts requiring inspection prior to release to the shop floor or stock location. Control, contain and disposition incoming receipts.

WORKSHOP DESCRIPTION:

During this session, the attendees will learn how to set up purchased parts to require inspection, view the receiving inspection window, release, return or partially release/return product. Your instructor will spend 30-40 minutes reviewing the training material. The remaining time will be dedicated to the execution of receipt of parts and disposition in the receiving inspection window.

WHO SHOULD ATTEND:

Quality, Supply Chain, and Production Planning staff will benefit from this training.

LEARNING OBJECTIVES:

Upon completion of this workshop attendees should be able to set up parts and act on receipts in the receiving inspection window.

WORKSHOP PREREQUISITE:

This is a hands-on workshop. Attendees should have working knowledge of the VISUAL ERP system. Attendees must also have security rights and access to a recent copy of a restored test database.
