

Synergy Awarded

*Infor Manufacturing Partner
of the Year for FY 2016*

Synergy Awarded 2016 Infor Manufacturing Partner of the Year

Infor Partner of the Year Awards were presented at the annual Infor Americas Partner Summit 2016 on July 10-13, 2016 in New York City.

Winners were congratulated based on performance and recognized by Jeff Abbott, Senior Vice President of Channels and Alliances, and Lisa Joseph, Vice President North America Channels. Infor rewards distinguished Partners via this Awards program, in front of peers, Infor leaders and industry media & analysts, applauding the most successful Infor Partner Network (IPN) members

Synergy's Paul Tedford, Business Solutions Director, accepted the prestigious award "**2016 Infor Manufacturing Partner of the Year**". That makes it 5 out of the past 6 years that Synergy has been equally recognized.

And the future looks even brighter. Since April 1, 2016, Synergy has acquired 30 new VISUAL customers. Off to a very nice start towards this respected honor again in 2017.

"The Infor Partner Network experienced a great FY16 of continued innovation and growth. To show our appreciation and recognize excellence in our partners every year, we host The Americas Partner Summit Awards," said Jeff Abbott, Senior Vice President, Global Channel Business Unit, Infor. "All of our partners do fantastic work; the winning partner organizations are a select few that have consistently gone above and beyond. We want to thank all of our partners for their continued efforts in making the Infor Partner Network as notable as it is."
