

GET OUT OF THE SERVER CLOSET AND INTO THE CLOUD!

Synergy Resources and Diverse Technology Solutions have teamed up to develop VISUAL Manufacturing ERP in a VISUAL certified, private, cloud hosted environment. Capable of hosting your entire VISUAL software suite, Synergy Cloud is delivered to you via a web browser. Log on to your business applications anytime, anywhere from any device. Simply launch your browser, log in, and your powerful set of business tools and applications are ready to use!

Synergy typically sees a cost savings of 50% or more for those that make the switch.

Needs:	On Premise:	Cloud Hosted:	Savings:
Server Hardware	Reliable servers cost upwards of \$15-25k before software is even installed and need to be replaced every 3-5 years as technology advances.	State of the art dedicated private server. Maintained by VISUAL experts who know the systems inside and out.	Save thousands of dollars on hardware alone throughout the life of the business.
Server Licenses <ul style="list-style-type: none"> • SQL • MS Office • Windows OS • Terminal Servers, etc. 	Upwards of \$8-12k	Get the latest versions of licensing needed, when they are needed, included in your cloud hosting agreement.	Save thousands of dollars on the cost of these, and the time required to respond to audits.
Managing Onsite Server(s)	Dedicated IT staff member(s) or 3rd party IT contract by a non-VISUAL expert.	Maintained by IT professionals that know VISUAL, and its requirements inside and out	3rd party IT contracts reduced or eliminated and time re-allocated for employees responsible for keeping VISUAL up and running
Time	<ul style="list-style-type: none"> • Patch updates • Software updates • Managing security and uptimes, back-ups, RDP configurations and more. 	Patches, upgrades, security measures. are all managed and performed as part of the cloud agreement.	Time is money and peace of mind is priceless. Save thousands on version upgrades and patch install support. No need to budget for updates. It's all included, performed on your schedule, with your blessing!

Based on 25 years of VISUAL configuration experience, Synergy Cloud is the ONLY cloud environment built specifically for VISUAL ERP. Synergy Cloud is maintained by VISUAL experts, delivering the highest level of dependability, performance and accessibility for the VISUAL user.

DOES CLOUD MAKE SENSE FOR YOUR BUSINESS?

Hosting your ERP in the cloud does not make sense for every client, ask yourself these questions and see if Synergy Cloud may be a fit for your business.

- *Do you feel information technology is consuming a disproportionate amount of your time taking away from your customers and products?*
- *Do you spend \$10k or more for 3rd Party IT consultants to maintain your VISUAL and other databases?*
- *Are you hindered by upgrade costs when considering moving to the latest version of VISUAL?*
- *Do you struggle to stay up to date with current critical patches and product improvements?*
- *Are you confident in your back up process and do you consistently test restoring from your backups?*
- *Do you have complete confidence in the security of your Database, both from online attacks or on premise?*
- *Do you ever wish you could access VISUAL from anywhere at any time?*
- *Are you confused by all the licensing costs and compatibility requirements?*
- *Do you have multiple sites with multiple databases and the cost of upgrades seems overwhelming, and you don't know where to start?*
- *Are you 100% sure you would be able to restore your Database in a disaster recovery situation?*
- *Do you require integration to 3rd party systems?*

Unlike traditional Cloud Offerings, Synergy Cloud does not force upgrades upon you, upgrade on your time, when it makes sense for your business. Additionally, unlike other cloud solutions, Synergy cloud can host all your critical applications to allow for access from anywhere at any time. True IT delivered as a service not only makes sense for companies with limited IT budgets and know-how, it takes away a critical worry that is unnecessary with today's technology, all the while saving time, money and valuable resources.

PEACE OF MIND

- Eliminate 3rd Party IT with Synergy Cloud and available help desk
- No charge upgrades on your time, at your pace
- Always be up-to-date with critical patches and enhancements
- Nightly back-ups
- Concentrate on revenue earning activities knowing VISUAL is running as it should 100% of the time
- Access VISUAL from home or on the road from anywhere in the world with any device that has an internet connection
- Never worry about Microsoft license renewals and latest versions, it's all included!
- Have all sites and databases on the same version of VISUAL, no need to choose which site comes first, run on test servers before going live
- Redundancy in back-up processes ensure 100% guaranteed restore success
- Rest easy knowing Firewalls, Anti-Virus Intrusion prevention and detection is a worry of the past
- PCI, HIPAA, SEC, SOX, etc. compliance
- Host your entire VISUAL ecosystem in the cloud, including 3rd party, Infor and Synergy tools
